

AUDIO GUIDES

Mini Style Keypad

Compact audio guide with number keys

DESIGNED IN

Belgium

About this Product

The Mini Style audio-guide platform with a physical numeric keypad. Visitors enter a stop number to play commentary, use Point & Click targets, or follow automatic IR/RF triggers. It also receives live guide audio from a compatible STYLE TGT transmitter, so the same compact device can serve individual visitors and guided groups.

Key Features

Choose a stop by number

Enter the number beside an exhibit and press play to hear its commentary. The circular controls keep pause, resume, volume and track navigation within reach.

Buzz & Play

Approach a target to trigger audio content with vibration feedback. A fun and intuitive way to interact with your exhibits.

Precise Location-Based Triggering

Automatically trigger content as visitors approach using RF or infrared with 10cm precision.

Point and Click

Trigger messages by pointing and clicking at a target.

Technical Specifications

SOFTWARE

- | Recorded stops selected by number
- | Point & Click and automatic IR/RF triggering
- | Multilingual recorded commentary
- | Live commentary from compatible STYLE TGT transmitters
- | Audio synchronized with external videos

HARDWARE
