REAL WORLD PROJECTS

Disney: The Exhibition

BEIJING, CHINA

Vincent van Gogh Immersive Exhibition

BRATISLAVA, SLOVAKIA

Kandinsky: The Music of Colors

PARIS, FRANCE

Key features

Compact Museum Audio Guide

Small but powerful, Mini Trend packs multimedia playback, interactive triggering, video synchronization, and tour guide functionality into one pocket-size museum audio guide.

Buzz & Play

Tap to trigger audio content, with vibration feedback. A fun and intuitive way to interact with your exhibits.

Precise Location-Based Triggering

Automatically trigger content as visitors approach using RF or infrared with 10cm precision. Battery-powered boxes last years, proven by millions of visitors.

Point and Click

Trigger messages by pointing and clicking at a target. The targets can be run on AA batteries for years, and can be integrated seamlessly into the surroundings.

Technical Specifications

SOFTWARE

- Customizable front surface for branding or temporary exhibitions
- Extreme reliability – under 3% defect rate per year
- Special visually impaired keypad and induction loop for hearing impaired

More Features

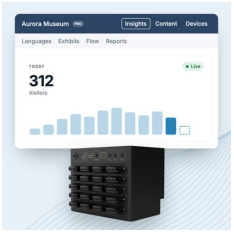

Customizable

Customize the look of your Trend audio guides with your own sticker design!

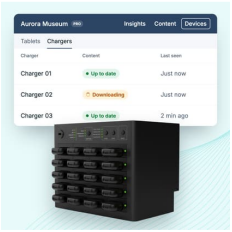

Video Synchronization

Synchronize with external videos by IR, RF or Point & Click! Each visitor can listen to audio content in their own language, in sync with show controllers or videos for the ultimate interactive experience.

Automatic Visitor Statistics

Each time the guides charge, the smart charger uploads their usage data to Look2Guide. See which stops visitors play and how long they listen, without exporting anything by hand.

Update content any time

Publish a change in Look2Guide and the connected chargers download it and update every guide while it charges. No cables and no device-by-device updates.
