Key features

Immersive Sound

Select from two innovative models: the hygienic TWISTER AG, engineered to eliminate ear contact, and the TWISTER HIFI AG, renowned for its exceptional spatial sound quality.

Precise Location-Based Triggering

Automatically trigger content as visitors approach using RF or infrared with 10cm precision. Battery-powered boxes last years, proven by millions of visitors.

Ultra-Lightweight Comfort

At just 100 grams, allow your visitors to explore comfortably for hours. A hygienic option is available that eliminates direct ear contact.

Multimedia Synchronization

Perfectly synchronize with videos, show controllers and live performances, creating immersive, hands-free visitor experiences.

Technical Specifications

SOFTWARE

- Web-based CMS with unlimited AI content creation, editing, and translation

HARDWARE

- All-in-one headset design with no external control box needed
- 30-hour battery life with fast charging
- 16GB storage for rich multimedia content
- Premium audio with open-ear headphones for safety
- Advanced wireless connectivity
- Multiple triggering options: IR, RF (2.4 GHz), RFID
- Effortless magnetic charging
- Modular 20-unit racks for charging and updates
- Ultra-lightweight design: 160 × 170 × 30mm (70g) or 160 × 170 × 55mm (118g)
- All-weather durability (-10° to 50°C, 96% humidity)
- Award-winning construction with proven reliability
- Sleek and ergonomic design. Lightweight, modern, and user-friendly
- Anti-theft RF alarm system and optional floor barrier
- Built for high-traffic environments with less than 3% defect rate
- Ready for hands-free operation
- Designed for comfort, hygiene, and user freedom

More Features

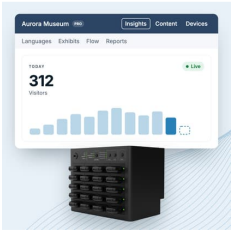

Long Battery & Smart Charging

30 hours of play time per charge. Chargeable to 80% in ~2 hours. Stackable 20-unit chargers for power only or power+data keep fleets ready with minimal handling.

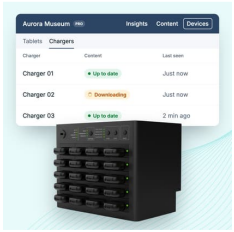

Proven Durability

The rugged polycarbonate shell design has proven its reliability through thousands of units already in use worldwide. Simplified operations reduce staffing and lifetime cost.

Automatic Visitor Statistics

Each time the guides charge, the smart charger uploads their usage data to Look2Guide. See which stops visitors play and how long they listen, without exporting anything by hand.

Update content any time

Publish a change in Look2Guide and the connected chargers download it and update every guide while it charges. No cables and no device-by-device updates.
