Key features

Exceptional Spatial Sound

Premium on-ear drivers deliver rich, immersive spatial audio with exceptional clarity and depth. Experience exhibitions as they were meant to be heard.

Comfortable On-Ear Design

Soft on-ear cushions provide superior acoustic seal and comfort for extended listening sessions. At just 128 grams, the HIFI model balances premium sound with all-day wearability.

Adjustable Fit

Self-adjusting headband with flexible construction ensures a perfect fit for every visitor. The stretchable design accommodates all head sizes comfortably.

Professional-Grade Durability

Built to withstand thousands of uses with a rugged polycarbonate shell and reinforced kevlar cable. The detachable cable design makes maintenance simple and cost-effective.
