About this Product

AI Audio Translate is the focused translation workflow for teams that already have source tours and want visitor languages quickly. It creates translated narration from transcripts, preserves atmosphere with background music extraction, supports unlimited generations, and keeps review before publishing.

Key Features

Translate entire tours

As part of Look2Guide PRO, create a new visitor language from source transcripts and generate narrated audio for every ready exhibit in one workflow.

Background music extraction

Carry the atmosphere forward by extracting background sounds and music from the source audio and mixing them into the translated narration.

Private AI generation

Audio is generated on Look2Guide-controlled servers for GDPR-compliant workflows. Scripts, source audio, and generated narration are never sent to third parties for AI training and are never used to train AI

Unlimited regeneration

Regenerate translations and voice output as many times as needed, then review the final audio before publishing to the exhibit.

Technical Specifications

SOFTWARE

- | Create target-language narrated audio from source transcripts
- | Source and target language selection in one guided workflow
- | Batch translation across all exhibits with ready transcripts
- | Transcript readiness count before generation starts
- | Voice selection for translated narration
- | Mood and delivery style selection for generated audio
- | Background sound and music extraction from source audio
- | Preserve ambience while replacing narration in the target language
- | Unlimited AI generations and regenerations for every language
- | GDPR-compliant AI audio generation on Look2Guide-controlled servers
- | Scripts, source audio, and generated narration are not sent to third parties
- | Customer content is never used to train AI models
- | Copyright-conscious handling for museum scripts, translations, voices, and background...
- | Review translated audio before publishing
- | Publish approved audio directly to target-language exhibits
- | Support for multiple visitor languages in the Look2Guide CMS
