About this Product

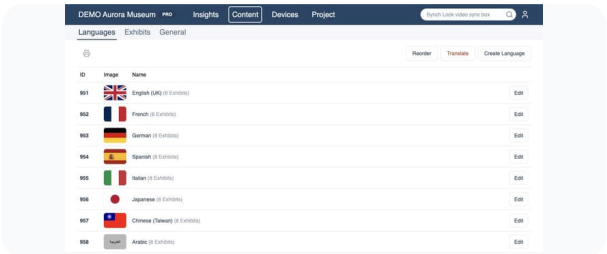

Look2Guide CMS manages audio guide content in your browser. All AI features are included free with Look2Guide. The CMS is included with rentals and purchases, with an optional MDM upgrade for statistics and remote content updates.

Key Features

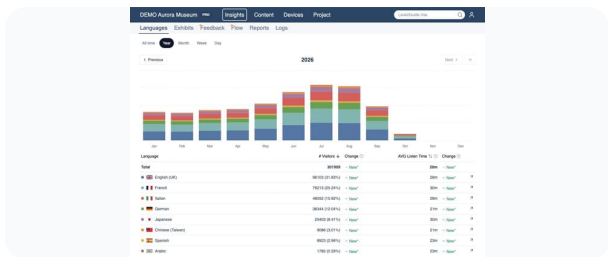

Exhibit editing

Create and edit exhibit content, images, audio, transcripts, and playback options in one browser-based workspace.

Language management

Manage visitor languages and translated content from the same project, including language setup, defaults, and readiness checks.

Insights and Access Control

With the optional MDM upgrade, review visitor insights and assign roles for statistics-only or full programming access.

Technical Specifications

SOFTWARE

- | All AI features included free with Look2Guide
- | Web-based CMS included with rentals and purchases
- | Easy programming of content, configuration, and playback rules
- | Remote content updates via connected smart chargers
- | Flexible user access plus optional statistics reporting
