TOUR GUIDE SYSTEMS

Mini Style Keypad

Live guided tours with direct keypad selection

DESIGNED IN

Belgium

About this Product

Mini Style Keypad combines a compact tour-guide receiver with a numbered audio guide. A compatible STYLE TGT transmitter sends the guide's live commentary to visitors. Between guided sections, visitors can select recorded stops with the physical keypad. Multilingual recorded commentary and synchronization with external videos support a range of visits.

Key features

Choose a stop by number

Enter the number beside an exhibit and press play to hear its commentary. The circular controls keep pause, resume, volume and track navigation within reach.

Compact Digital Tour Guide Device

Compact handheld format. Physical numeric keypad instead of a display. Circular playback, volume and track controls.

Tour Guide System

Use a compatible STYLE TGT transmitter for live commentary and remote playback of recordings. Visitors can also select recorded stops using the keypad.

Multi-Channel Tour Guide

Trigger internal messages for single or multilingual groups with simple, reliable control.

Technical Specifications

SOFTWARE

More Features

Video Synchronization

Triggered messages can synchronize with videos or show controllers via IR/RF. It's not just a tour guide, it's also a multimedia audio guide full of interactive capabilities!

Point & Click

Trigger messages by pointing and clicking at a target.

Buzz & Play

Tour leaders may sometimes want to let their visitors explore part of the experience on their own. Simply tap the guide to trigger audio messages with haptic feedback.

Timeless Design

Sleek and ergonomic design – light, modern, and user-friendly.
