TOUR GUIDE SYSTEMS

Mini Style

Mini Digital Tour Guide & Multimedia Audio Guide

DESIGNED IN

Belgium

About this Product

Compact digital tour guide system featuring a full multimedia audio guide. Supports 20 tour-guide channels for parallel groups, lets guides trigger pre-recorded messages (single or multilingual), and can keep content synchronized with external videos during shows. Small form factor and long autonomy make it easy to serve both group and individual visitors...

Key features

Compact Digital Tour Guide Device

Shown from every angle, Mini Style combines a compact digital tour guide device with a multimedia audio guide, supporting parallel group tours, pre-recorded message triggering, and synchronized

Tour Guide System

Just like the bigger sibling, the Mini Style integrates a complete tour guide system, allowing remote triggering of messages for a seamless tour experience.

Multi-Channel Tour Guide

20 digital channels allow multiple groups to operate in the same space. Trigger internal messages for single or multilingual groups with simple, reliable control.

Video Synchronization

Triggered messages can synchronize with videos or show controllers via IR/RF. It's not just a tour guide, it's also a multimedia audio guide full of interactive capabilities!

Technical Specifications

- All-weather durability (-10° to 50°C)
- Award-winning construction with proven reliability
- Sleek and ergonomic design – light, modern, and user-friendly
- Customizable front surface for branding or temporary exhibitions
- Available with keypad or high-resolution tempered glass screen
- Ready for self-service operation

More Features

Point & Click

When used as an audio guide, visitors can point and click at targets to trigger messages. No keypad needed. Targets run for years on AA batteries and blend into exhibits.

Buzz & Play

Tour leaders may sometimes want to let their visitors explore part of the experience on their own. Simply tap the guide to trigger audio messages with haptic feedback.

reddot design award

Compact, Award-Winning Design

Ergonomic, neutral design with a striking back pattern. Winner of the Red Dot Design Award 2022, now in a compact form factor.
