TOUR GUIDE SYSTEMS

# Style

## Digital Tour Guide & Multimedia Audio Guide

DESIGNED IN

**Belgium**

# About this Product

The digital tour guide system featuring a full multimedia audio guide. Supports up to 20 tour-guide channels for parallel groups, lets guides trigger pre-recorded messages (single or multilingual), and can keep content synchronized with external videos during shows. Long autonomy minimizes daily handling and makes it easy to serve both group and individua...

# Key features

### Multi-Channel Tour Guide

Up to 20 digital channels allow multiple groups to operate in the same space. Trigger internal messages for single or multilingual groups with simple, reliable control.

### Remote Triggers for Groups

Guide-side triggering of pre-recorded stops keeps groups in sync without shouting or ad-hoc coordination. Ideal for complex routes and busy venues.

### Video Synchronization

Triggered messages can synchronize with videos or show controllers via IR/RF. It's not just a tour guide, it's also a multimedia audio guide full of interactive capabilities!

### Point & Click

When used as an audio guide, visitors can point and click at targets to trigger messages. No keypad needed. Targets run for years on AA batteries and blend into exhibits.

# Technical Specifications

## SOFTWARE

- Web-based CMS with unlimited AI content creation, editing, and translation
- Wide range of programming options
- Adapts to any tour designer's requirements
- Supports all tour formats, including linear, hands-free, or interactive
- Professional video synchronization technology
- Intelligent automatic triggering system
- Mixes multiple trigger types (Point & Click, Buzz & Play, IR, RF, and keypad)
- Syncs easily with videos, lighting, kiosks, or shows
- Supports individual and group tours
- 20 groups in parallel with no interference
- 20 channels available for tour guide functionality
- Online or offline content updates (USB / SD card)
- Comprehensive usage analytics
- Live usage statistics accessible online
- End-of-visit reports via email with Look2Guide
- Built-in security features

## HARDWARE

- More than two months of real-world use (100+ hours continuous playback) with fast cha...
- 16GB storage for rich multimedia content
- Premium audio with headphone jack
- Advanced wireless connectivity
- Integrated 2.4 GHz digital tour-guide system
- Multiple triggering options: IR, RF, RFID, Point & Click, Buzz & Play, keypad
- Effortless magnetic charging
- Modular 20-unit racks for charging and updates
- Compact design: 155 × 58 × 18mm, 150g
- Vibrant 1.7" color display for easy navigation
- Intuitive keypad with ring-3 navigator
- All-weather durability (-10° to 50°C)
- Award-winning construction with proven reliability
- Red Dot Design Award Winner 2022
- Sleek and ergonomic design. Lightweight, modern, and user-friendly
- Customizable front surface for branding or temporary exhibitions

# More Features

### Buzz & Play

Tour leaders may sometimes want to let their visitors explore part of the experience on their own. Simply tap the guide to trigger audio messages with haptic feedback.

reddot design award

### Award-Winning Design

Ergonomic, neutral design with a striking back pattern. Winner of the Red Dot Design Award 2022.
